

HAYS PREDICTS 161 MAJORITY FOR G.O.P. IN ELECTORAL VOTE

HARDING WILL SWEEP SIX WESTERN STATES THAT WERE CARRIED IN 1916 BY DEMOCRATS, ACCORDING TO REPUBLICAN NATIONAL CHAIRMAN.

Washington, Sept. 14.—Following a general survey just completed National Chairman Hays predicts that Senator Harding will receive 346 votes, or a majority of 161, in the electoral college.

Such a triumph would be equivalent to the Roosevelt landslide in 1904. Approximately 185 electoral votes, chiefly from the "solid south," are conceded to the Democratic ticket.

Six middle western states found in the Democratic column four years ago are heralded as Republican this year. They follow, with their electoral vote: Colorado, 6; Kansas, 10; Kentucky, 12; Missouri, 10; Nebraska, 8; Ohio, 24.

No doubt seems to exist in the mind of the Republican national committee as to Indiana, Illinois, Iowa, Minnesota, Wisconsin and Michigan.

All, according to the survey, will cast their electoral vote for Harding and Coolidge.

California, whose electoral vote went to Wilson despite Senator Johnson's election by a majority of 200,000 four years ago, will return to the Republican fold with its senatorial vote leading the fight for Harding, according to the survey. A majority of 100,000 is predicted.

Only a couple of western states with negligible votes are given to Governor Cox.

All New England, as well as New York, Pennsylvania, New Jersey and Delaware, is listed as Republican. Maryland and West Virginia are cautiously doubtful.

Cheered by Rail Men.

Marion, Ohio, Sept. 14.—Large delegations of employees of the six railroads entering Marion, headed by several bands, yesterday marched to Senator Harding's front porch and gave the candidate an enthusiastic endorsement.

The delegation was composed of members of the Harding and Coolidge Railway Employees' club, organized in his home town shortly after Senator Harding's nomination.

The demonstration was particularly significant in the face of repeated assertions on the part of labor leaders that the railroad workers were allied again the candidacy of Senator Harding.

This contention was referred to by some of the speakers in the delegation, who appeared to differ with such a conclusion.

The banners carried by the railway workers also were significant.

"The government must change conductors," Harding is the man.

"Harding will not sidetrack us."

"Let Harding pilot the train of states."

Replying to speeches pledging their support, Senator Harding praised the "wonderful" service given the American public by the railroads and the devotion to duty of the workers which made such service possible.

The candidate mentioned the enormous growth of the transportation systems, which, he said, had reached its height at the outbreak of the world war.

The taking over of the railroads by the government at that time, Senator Harding described as a "complete revolution in our government policy in dealing with these public utilities."

The experiment in government operation, he said, had proved a failure.

No Barnstorming.

New York, Sept. 14.—There will be no "barnstorming" in connection with projected speaking trips of Senator Harding.

Will H. Hays said here yesterday in commenting on a report from Marion that the Republican presidential candidate would travel from coast to coast.

"There has been no change in opinion," he said, "and Mr. Harding has expressed a month ago."

He expressed doubt that Senator Harding would go farther west than Omaha.

GRUNAU ADMITS STRIKE IS ENDED

(By the Associated Press.)

Chicago, Sept. 14.—Admission by John Grunau, leader of striking switchmen, yesterday and confirmation in the Chicago switching district, that the walkout had ended was made possible today.

At meetings called by the men last night, majorities were reported in favor of returning to their former positions.

Grunau's announcement that at Sunday night, meeting the men had decided to continue on strike by a majority of 200 was followed by charges on the part of the strikers of bribery, trickery, stuffed ballot boxes and intimidation.

The strikers, at a meeting presided over by Grunau, declared their intention of returning to work, and Grunau admitted a commitment to them with the railroad managers in securing the best terms possible.
